

PUBLISHED DAILY & TRI-WEEKLY BY EDGAR SNOWDEN.

MONDAY EVENING, DEC'R. 5, 1831.

At times during the sitting of the House re publican caucus list Saturday the votes of the two Virginia readjusters would have afford d material assistance to Mr. Keifer, and would have been gratefully received by him, and, what would have been of infinitely more importanco to these genilemen, would have been generously recompossed in the distribution of the Speaker's patronage. They called upon him previous to the caucus, and told him they proided in their expressions of satisfaction at would vote for him if he received the nomina tion, but that they would not go into the cancus and at that moment they suck into utter justifiche both in morals and law that will beat political impotence and insignificance. The caucht was the only place in which they could have been of any possible use to Mr. Keifer, or the House the proceedings as usual to any other aspirant for the Speakership. The topublicans had enough votes to elect any body | quite interesting, and every portion of the gain who might be nominated. Nomination was equivalent to el ction. It was the nomination Kester was cheted Speaker Richart any trotthat Mr. Keifer wanted; for, that he stood in bie, the vote being : Keifer 148, included in need of the votes of Mesers. Paul and Fa kat- | which were Mesers. Paul and Fulkerson; Ratson; their votes then would have been if service to him; at no other time were they want ed; to have given them then would have been a valuable service that would have demanded republicions, on all other questions he would not not received valuable remuneration. But it was just then that the readjusters failed him. Wiy, no body save themselves seems to know, and they have made no expisuation. It may have been wisdom, according to the lights prevailing is the lies toos 7th and 9th Corguescional Districts of Virginia, but, according to these prevailing to every other port of the entire country, it was the quintescence of sturidi-15. They proclaimed the fact of their republi catism by apponening their intention of supporting the nominees of the republican caucus. as matter who they might be. They thereby undro. ived the few silly perp's who had voted for them under the turprission that they were democrats, and confirmed the opinion long en tertained by every reasonable man at all acquaisted with them that they had been radicals in disguise. The adjum attached to their course has, therefore, been incressed, and the range of usual late this afternoon, if at all to-day, it isn't its operation been extended throughout the probable the G-zette's readers will peruse it limits of the land. Men governed by high, noble and patriotic motives, elected by Virginians eigy steking places, but the indications are himself, and this, of course, created quite a and having Virginia's intercets at heart would that their tearch will be in vain. Then there sir in the court. Among those here are Messra, L. wis bolding their own interests superior to these of Brady, Van Auker, Bayly, Holmes, Sangster, their State, as the course pursued by the rand. With regard this apponenent by declining to go into their to Mr. Riedicherger, who is expected here obtain I is nomination. They tak like republic that though he is General Mahone's candidate cans, they act like republicans, and they are republicans. They are so counted in all the drawal for the condidacy for the Sergeant-At estimates of party strongth, and yet, they have Arms of the Senate, and will insist upon the debarred themselves from Congressional bonfi s sectuing from regublication. They merit and receive al the avila of political apostacy, and at the same time deprive thomselv a of log that he should have both and that he must a y, even of its possible temporary good. They indications to day are that there will be no would not, and could not if they would, be of change in them at least for the present, and any service to the democrats They are, therefore so far at least as Congress is concerned political cunuchs, and having no one to blame torithat condition but themselves, are miliculad

accordingly. Judge D v.d Davis's recent assertion that the life of the republican party will never be endangered as long as the democratic party lives, may be sufficient to satisfy lisowa ensoler or respecting his disregard of a former acsertion made before he was cleated to his proseat position by the republicans, to the effect that he would not accept office at the hands of either of the political parties, but it by no and Chaplein of the House, but it isn't probable means recordiles the people at large to his adom lans position. Then, too, if true, it bodes be elected.

Among those on the floor of the House to day

Among those on the floor of the House to day ha'f the voters of the equatry are so blinded by hate and prejudice exainst the other half that no matter what excesses and ev. n crimes the republicit party may be guilty of they will continue to entrust it with the control of the Gaverement.

Rainey, the negro candidate for the Clerkship of the U. S. House of Representatives, has now a realizing tense of republican insincerity. When there was no chance of electing him, bccause the democrats were in the majority, they nominated him, but when they obtained that tro of Mr. Hiz ston, now of the American. It majority and could have elected him, they will be nominally an independent paper, but thought it presumptuous in him to ask for the really a stalwart organ, and one of its editors, it place, and gave it to a white man. The Southern republicans even went so far as to meet bofore hand and proncunce against him by nominating Brownlow for Doorkseper, and declaring that their section would be satisfied with that office. But as a fool brayed in a morter will still be a fool, the negroes will continue to yote the republican ticket.

General Mahone's home organ is not "well up" in one of the three "R's." Its owner is on record as saying, "there are supposed to be 180,000 white voters in the State (though not more than 140,000 ever get to the polls) and about 100 000 colored. Supple we can divide the white vote equalig, we have 100,000 colored votes to get any majority we want from." His home organ says he did divide the white vote equally. The half of 140 000 is 70,000 These with the 100,000 nearly all of whom voted for him would have given him 170,000 votes, but instead of that number he only received 113,030 The organ would be more accurate if it were to say the General got 100,000 negro and 13,000 while votes.

Judge David Davis, President of the U. S. Senate, while on the witness stand in the Guitesu trial, when saked if he believed that the success of the democratic party would tend in any degree to bring on another civil war, replied "No; I do not. I think that the Southern people are the last people in the world to desire to go into any war. If there be any war, it will come from somewhere else than the South." And yet Judge Pavis, since the republicans elected him to his present position, always votes with those who say it will endanger the country to intrust its control to democratic hands.

PROM WASHINGTON. Special Correspondence of the Alexa, Guzette. WASHINGTON, D. C., Dec. 5, 1881.

The first session of the 47th Coogress con. mesced to-day. In the Sonate nothing ucusual happened, and at the early hour a recess was taken to await the organization of the House. He met the prisoner frequently at the rooms of the Young Men's Obristian Association. He was consignally ongaged in religious conversations, in spasking to small sudiecoes, and in seling religious bocks. He had seen the prisoner speak frequently at public meetings, and it was quite frequently the case that when he rose people loft the hall, saying that he was a bore and erszy. The witness was admonished not to mention the opinions of others than himself, but on several occasions he violated the injucetion, and had to be again admonished. The witness paid no attention to hints about the prisoner's losacity, because he had often been called issane himself. He regarded him as a man profoundly in earnest in some new religious idea. When cornered in argument he assumed some special illumination .-He had also met him at the republican committee rooms in New York, where he appeared greatly elated on account of a large appropriation meds by the committee for the publication of his speech, routing the amount at

My mother was afflicted a long time with

Neuralgia and a dull, heavy inactive condition of the whole system; headache, nervous prostreion, and was almost helploss. No physicians or medicines did her any good. Three months ago she began to use Hop Bitters, with such good effect that she seems and feels young again, although over 70 years old. We think there is no other medicine fit to use in the family. A lady in Trovidence, R. I.-. Journal.

VIRGINIA BONIS .- J. A. Hambleton & Co's. Baltimera Financial Circular of Szturdzy last

Virginia 10 40's were not so well supported. and in the absence of orders to buy, and a rather marked pressure to sell, they declined from 462, the opening figures, to 45 closing at 443 to 45. Virginia peelers were dull with small transactions ground 41. Projer coupors sold at about 27. There was quite a decline in tax receivable tornisily estimated the chamber, and siter closed doers. It appears that Height was a coupens, which on free offering sold down from passenger on the same steamer with Mrs. 93 to 801 but latter were in better domand at 80, dentials of Senator cleet William Windom, of Christiancy when she first went to Peru, and we think the decline in coupens more accidentally. al than from any special cause. Just at this time there is but little demand for coupons to psy laxes, as most of the taxes were settled in November. At this time of the year there is the appointment of ex-Senator Elgerson. Mr. Christizery and his wife. The reason usually a decline in compone, as the first of Jancommenced earlier.
